

GAIN KNOWLEDGE | ENGAGE WITH COMMUNITY | BE INSPIRED

2025 Fellows Course Overview

This long-running course will be a resource that will prepare participants to properly identify, diagnose and treat patients with vascular disease. The program is designed for trainees of various training pathways including vascular medicine, cardiovascular medicine (general or interventional), interventional radiology, and vascular surgery. It will offer a foundation in non-invasive and invasive vascular medicine including the diagnosis and treatment of arterial, venous and lymphatic disease. New this year, the course directors are planning a dedicated Point-of-care ultrasound session.
