2027 FELLOWS COURSE OVERVIEW

Through this long running course, SVM is committed to advancing the education of trainees and advanced practice providers (APPs) to reduce underdiagnosis and improve outcomes of patients with vascular disease. This program is designed for training pathways including vascular medicine, cardiovascular medicine (general or interventional), interventional radiology, and vascular surgery. It will offer a foundation in non-invasive and invasive vascular medicine including the diagnosis and treatment of arterial, venous, and lymphatic disease. Through interaction with course faculty, the course also offers vast mentorship and networking opportunities with the overarching goal of shaping the future leaders of vascular medicine.

AGENDA HIGHLIGHTS

SATURDAY, MARCH 20

- Aorta Disease
- Peripheral Artery Disease
- POCUS Hands-On Point-of-Care Ultrasound
